Test adapter

Model No.
SR 328

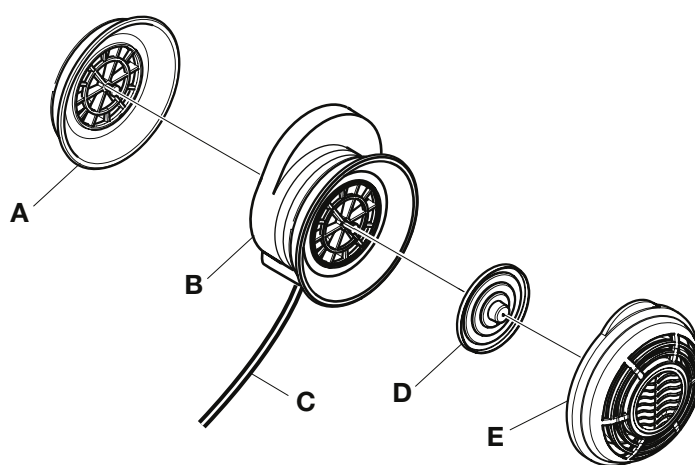

Ordering No.
T01-1202

Product Description

The SR 328 test adapter is used for connecting the SR 100 / SR 900 half mask Air Purifying Respirator (APR) to a measuring instrument for carrying out quantitative fit test. The adapter is connected to one of the exhalation valves of the mask.

The adapter is intended for use only for quantitative fit testing under test conditions. It must not be used under real work conditions.

- A. Valve seat of the mask
- B. Adapter
- C. Tube
- D. Exhalation valve membrane
- E. Valve cover
