Protective film	SR 522	T06-0201
	T06-0601	T06-0601
	SR 582	T06-0801

Product Description

The protective films are used for protecting the visor of the Sundström hoods SR 520, SR 530, face shield SR 570 and helmet with visor SR 580 against fouling, e.g. during spray painting.

SR 522 fits hoods SR 520 and SR 530. The film is delivered in a pack of twelve.

T06-0601 fits face shield SR 570. The film is delivered in a pack of ten.

SR 582 fits helmet with visor SR 580. The film is delivered in a pack of ten.

The outer edges of the SR 522 and SR 582 protective film are provided with double-sided adhesive tape that keeps the films in place. Protective film T06-0601 is mounted in clips that are placed on the side of the visor. No more than three films should be fitted at a time.

Technical specification

SR 522, T06-0601, SR 582

Material	PET
Thickness	0.125-0.2 mm
