

Sustainability Goals 2022

Result

ENVIRONMENTAL IMPACT

GOAL: Reduce the amount of combustible waste by 20%*.

100 % completed

GOAL: Reduce our energy consumption by 10% per million sales (SEK)*.

100 % completed

GOAL: Increase the number of products produced by 10% per kWh consumed*.

100 % completed

GOAL: Increase the amount of recycled waste 20%*.

When following up on the goal, we have established that it has been worded incorrectly.

In 2021, we introduced sorting our waste with a clear division between combustible and soft plastics. Before formulating the goal for 2022, we did not consider that the soft plastic material weighs comparatively much less than other waste. Therefore the goal will be unrealistic to reach. The goal is therefore not relevant.
